The Honorable Kenneth Reeves
795 **Massachusetts Avenue**
Cambridge, Massachusetts 02139

Dear Mayor Reeves:

Secretary of Energy Hazel O'Leary has announced a new approach to openness in the Department of Energy (DOE) and its **communications** with the public. In support of this initiative, we are pleased to forward the enclosed information related to the National Research Corp. site **in your jurisdiction** that performed work for DOE or its predecessor agencies. This information is **provided** for your information, use, and retention.

DOE's Formerly **Utilized Sites** Remedial Action Program is responsible for **identification** of sites used by DOE's predecessor agencies, determining **their** current radiological condition and, where it has authority, performing **remedial action** to meet current radiological protection requirements. A conservative set of technical evaluation guidelines is used in these investigations to assure protection of public health, **safety** and the environment:

DOE's has studied the historical records of the **National Research Corp. site** and we **have concluded** that further **investigations** of the site are not necessary **because of** the limited scope of **the activities** performed there.

Even though additional involvement **by DOE** is not **necessary** at **this site**, we are prepared to respond to any concerns you may have.

If you have any questions; please feel free to call me at 301-427-1721 or Dr. W. Alexander Williams (301-427-1719) of my staff.

Sincerely,

John F. Wagoner II
